## Our BBA International Program

The Bachelor of Business Administration or BBA International Program was established in 1996 to demonstrate educational commitment to Thailand, the Asia-Pacific region and the global community. The BBA International Program was the first undergraduate program taught entirely in English at Chulalongkorn University. The program is rigorously selective and designed to provide students with academic and professional "business tools." Chulalongkorn University, as well as its BBA International Program, is consistently ranked as one of the best undergraduate and business programs in Thailand.

**BBA International Program produces graduates in one of two specific areas of concentration:**

### 1. International Business Management Major:

This major has 3 fields of study:

- **Financial Analysis & Investment**
- **Digital Business Management**
- **Brand & Marketing Management**

These fields of study focus on understanding trade development and the diversity of culture, and effective and competitive management in these environments.

### 2. Accounting Major:

This provides students with extensive knowledge of international accounting practices for modern business management.

Students in both majors have abundant opportunities to interact with international students and they can select to intern with multinational firms or organizations. In addition, BBA students can fulfill some required courses by spending time abroad as exchange students, or by selecting a study tour arranged by the Program.
