

Exchange Program Application Process

1. Rationale and Reasons

The Office of International Affairs (OIA) of the Faculty of Commerce and Accountancy and the BBA International Program have established academic co-operations with well-known universities around the world. One direct benefit is the student exchange agreement which provides outstanding students an opportunity to study abroad in foreign universities that best meet their long-term professional interests. According to Chulalongkorn's regulations, students are required to pay tuition fees to Chulalongkorn Universities before leaving the country and are exempt from paying tuition fees to the partner university during the period of exchange. In addition, students will be able to transfer credits earned from the partner universities to the Chulalongkorn University, if they meet the criteria specified by the Faculty of Commerce and Accountancy, Chulalongkorn University.

8. Credit Transfer and Regulations

According to Chulalongkorn regulations, strict adherence to the following procedures by students is required:

- 8.1 Course registered at the partner university must be considered and approved by the BBA Office or the Office of International Affairs to get course description equivalency. Course descriptions of free elective courses are not required for approval.
- 8.2 The maximum number of credits that can be transferred to Chulalongkorn University in one semester is twenty-two (22) or 7 courses. Mostly, one course will be awarded three credits.
- 8.3 Students need to earn a grade of "C" (or equivalent) or better in order to get credits transferred. A cumulative GPA will not be calculated. An "S" or "Satisfactory" will be shown in the student's transcript. On the other hand, students who earned a grade lower than "C" (or equivalent), an "U" or "Unsatisfactory" will be shown in the transcript. Students are required to read the Credits Transfer Regulations carefully. Students are responsible for rechecking the Grading System on our website as well as on the partner university's website for up-to-date information. Misreading is unacceptable excuse.
- 8.4 Since a study plan can help students prepare course registration correctly both before going abroad and after returning from the exchange semester, it is a student responsibility to prepare a study plan and provide the BBA Office or the Office of International Affairs the course description or syllabus for the course equivalency process before selecting the universities. For additional course equivalencies which might be required while studying at the partner university, a course description or course syllabus should be sent to the coordinators for consideration in advance: BBA International Program – P' Boom, Thai Program – P' Som. In addition, BBA students are recommended to take courses according to their major specified in the tentative course plan.
- 8.5 According to the Head of Accounting Department's suggestion, accounting major students who aim to take the CPA examination in Thailand should **not** take the following courses abroad:
